

COOL TV AI LABS, INC.,

- Building the Predictive Intelligence Layer for Humanity | Superintelligent AI Systems for a Predictive World™

INVESTMENT HIGHLIGHTS

Seeking \$50M Strategic Financing Round. Sentient AI™ is developing the world's first Predictive Intelligence Platform designed to transform computing from reactive to anticipatory. Powered by the Predictive Adaptation System (PAS™), Sentient AI™ continuously learns from behavioral, physiological, contextual, environmental, and interaction-derived signals to predict user intent, orchestrate applications, adapt interfaces and optimize workflows before a request is made. We believe predictive intelligence will become the next major computing paradigm following search, mobile, cloud, and generative AI.

THE PROBLEM

Today's technology remains fundamentally reactive. Users must constantly: Search, Navigate, Launch applications, Manage workflows, Configure interfaces, Interpret increasing volumes of information. Even modern AI assistants require explicit requests. The next generation of computing must understand context, predict intent, and proactively orchestrate digital experiences.

THE SOLUTION

PAST™ (Predictive Adaptation System™): A proprietary predictive intelligence architecture that learns from:

- Behavioral Signals | Physiological Signals | Contextual Signals | Environmental Signals | Device Interactions | Longitudinal Memory
- PAS predicts likely user intent and intelligently orchestrates applications, interfaces, workflows, AI agents, and digital services before a request is made.

WHY NOW?

For the first time in history, edge AI, TinyML, multimodal intelligence, cloud-scale learning, advanced sensors, and foundation models have converged to make predictive computing possible. Sentient AI is positioning itself to become the foundational intelligence layer between humans and machines.

VISION

- Every device. Every vehicle. Every robot. Every enterprise system. One Predictive Intelligence Platform, PAST™ powered by Sentient AI™.

Core Platform Components:

Sentient AI™ – Predictive Intelligence Engine | CascadeOST™ – AI-Native Predictive Operating System | SmartSelfie™– Super Intelligent AI Device

MARKET OPPORTUNITY

Estimated Total Addressable Market (TAM):

Artificial Intelligence:	\$1T+	Enterprise Software:	\$800B+	Mobile Computing:	\$600B+
Mobile Gaming:	\$150B+	Automotive Software:	\$600B+	Robotics:	\$500B+
Digital Health:	\$500B+				
Combined TAM:	\$5 Trillion – \$10 Trillion+				

COMPETITIVE ADVANTAGE

Proprietary Technology Stack:

Predictive Adaptation System (PAS™)	CascadeOST™	Behavioral Digital Twins	Perceived Intuition™ Engine
Physiological Interface Bridge (PIB)	Continuous Learning Flywheel	Edge AI + Cloud Intelligence Architecture	
Privacy-First Architecture	On-device AI processing	TinyML edge intelligence	
User-controlled permissions	Data sovereignty	End-to-end security model	

PLATFORM STRATEGY DEPLOYABLE ACROSS:

Smartphones | Wearables | XR Devices | Robotics | Autonomous Vehicles | Enterprise Systems | Healthcare Platforms | Defense Systems

CURRENT PROGRESS

(PAS) Utility Patent Pending on May 9, 2026: №: 64/061,795

CascadeOS architecture completed

SmartSelfie architecture completed

Behavioral Digital Twin framework completed

PRODUCT DEVELOPMENT

- AI engineering team engaged
- Android/AOSP development initiative underway
- System architecture completed
- Prototype renders completed
- Discovery and implementation phase initiated

SENTIENT

Sentient — Super Intelligent Systems for a Predictive World.

Company Profile:

COOL TV AI LABS, Inc.

www.sentientai.net

Industry: Artificial Intelligence

Employees: 5

Founded: April 17, 2026

Contact:

Franz Wakefield

FranzWakefield@sentientai.net

w: 305-206-4832

Financial Information:

Funding Stage:

\$50M Strategic Growth

12 Mo. Revenue

Previous Capital: \$500,000

Monthly Burn Rate: \$0

Pre-Money Valuation: + \$1Trillion

Capital Seeking: \$50,000,000

Management:

Franz Wakefield,

CEO | Chief Architect

FIG. 1: AGGRESSIVE VENTURE-SCALE ROADMAP

Year	Milestone	Revenue Target
Year 1	PAS MVP + SmartSelfie Prototype	Minimal
Year 2	Consumer Beta + Enterprise Pilots	\$5M-\$20M
Year 3	Commercial Launch + OEM Licensing	\$50M-\$100M+
Year 4	Global Expansion + Automotive/XR	\$250M-\$500M+
Year 5	PAS Ecosystem Platform	\$1B+
